Re: Your book: "Secrets".

Thank you for your patriotism and courage when it was needed the most by this country. I believe it is an extraordinary book for extraordinary times. Well worth the wait and a terrific historical piece of one of our most deplorable conflicts. Thanks again for providing us with a very honest and brilliant expose for those turbulent times.

I contacted your son, Michael, and requested his help in getting my book signed by you. I would be honored for your signing and it will remain in my personal library.

Thanks very much and God Bless.

Warm regards,

Jim Deveney, Sr.

P.S.

I've enclosed an SA stamped envelope. If you decide to jot down a note or two I would be most appreciative.
